

QCM TECHNOLOGIES JSC

Seafood Industry - Agriculture Industry - Packing Automation

QCM

technologies

Innovative Solutions, Premium Services.

SUSHI SHRIMP CUTTING MACHINE

QCM-X2

SUSHI SHRIMP CUTTING MACHINE

highlighted features

- Cut different size of shrimps without adjustment
- Many type of shrimps
- Controlled by micro-controller
- Simple, Lightweight & Easy to Use
- Machines is certified patent and copyright protection by law of Vietnam

QCM-X2

SUSHI SHRIMP CUTTING MACHINE

QCM-X2

technical specification

Dimension	550Lx430Wx950H mm
Weight	50 Kg
Materials	Inox 304, PO,PA
Electric power consumption	200 W
Input power	220V ± 10%, 1 phase
Max imum productivity	4800 shirmps/h
Air Pressure Supply	3 Kg/Cm ²
Accuracy	> 97%
